

MJRC Integrity & Verification Note

Report Title: Media Capture Monitoring Report: Romania

Authors / Publishers: International Press Institute (IPI) and Media and Journalism Research Center (MJRC)

Official File Name: Romania 2025.pdf

SHA3-256 Hash (Digital Fingerprint):

e33231946a6e8e60e4ee17e5a1d2d79762131842132600faf22f7ce4897f7ce

Verification Instructions:

1. Download the official report PDF (Romania 2025.pdf) from the MJRC or IPI repository.
2. Use any SHA3-256 hashing tool (e.g., QuickHash, OpenSSL, HashAvalon).
3. Generate the hash of the PDF on your device.
4. Confirm that the resulting value exactly matches the SHA3-256 hash printed above.

If the values match, the file is authentic and has not been altered.

About This Note:

MJRC applies quantum-resistant SHA3-256 fingerprints to selected reports to ensure their long-term authenticity and integrity, including in a future Quantum Internet environment. This note does not modify the original report produced jointly with IPI; it simply provides an independent, verifiable fingerprint.
